1. INTRODUCTION

- 1.1 The Chairman extended a warm welcome to all Unitholders and attendees present.
- 1.2 The Chairman noted that a quorum was present, and called the meeting to order. He introduced the board of directors (“Board”) and chief executive officer (“CEO”) of Keppel Infrastructure Fund Management Pte. Ltd. (“Trustee-Manager” or “KIFM”).
- 1.3 The Chairman informed that he had been appointed as proxy by a number of Unitholders to vote on their behalf and voting will be conducted by poll. As all proxy forms have been submitted 48 hours before the AGM, the number of votes for and against each motion had been verified by the scrutineers, RHT Governance, Risk & Compliance (Singapore) Pte. Ltd. and the poll results will be announced after each resolution.
- 1.4 As there is no “live” question and answer session at the meeting, responses to the substantial and relevant questions submitted by Unitholders have been published on SGXNET and KIT’s corporate website yesterday evening. The Chairman added that the CEO would be giving Unitholders a presentation where he would address some of the questions relating to KIT’s business operations and outlook.

2. CEO PRESENTATION

- 2.1 CEO gave a presentation on KIT’s performance update for the year ending 31 December 2019 (“FY 2019”) and first quarter of 2020 (“1Q 2020”). A copy of the presentation slides is available on SGXNET and KIT’s corporate website.

Introduction

- 2.2 CEO shared that 2020 marks the 10th anniversary of KIT since the listing of K-Green Trust in 2010. To mark this milestone, the Trustee-Manager took the opportunity to refresh KIT’s

brand identity. The new logo reflects KIT's brand character as the preferred business trust, serving as the trusted partner to all stakeholders.

- 2.3 Notwithstanding this change, KIT remains focused on growth and to deliver sustainable returns to its Unitholders. To-date, KIT is the largest diversified Business Trust listed in Singapore with total assets under management of approximately \$5 billion.

Resilience of KIT's portfolio through the COVID-19 situation

- 2.4 The current COVID-19 pandemic, which has caused concerns globally, has had limited impact to KIT's operations to date. All of KIT's businesses and assets are classified as essential services and continue to operate through various levels of lockdowns across Singapore, Australia and New Zealand. This highlights the resiliency of KIT's portfolio, particularly during these recent times of uncertainty.

Key Highlights for FY 2019

- 2.5 CEO shared that 2019 was an exciting and significant year for KIT. With the support of Unitholders, KIT completed the strategic acquisition of Ixom, which has strengthened and diversified KIT's portfolio and added a business with long-term growth opportunities. The addition of Ixom, coupled with robust operational performance across KIT's portfolio, saw KIT deliver distributable cash flows of \$189 million, a 34% year-on-year increase from 2018.
- 2.6 At the same time, the successful fundraising exercises during the year strengthened KIT's balance sheet and positioned KIT to pursue future growth opportunities that will further strengthen the Trust.

1Q 2020 Key Results Highlights

- 2.7 Despite the challenging operating environment caused by the COVID-19 pandemic, KIT achieved \$51 million in distributable cash flows, a 5.6% year-on-year increase from the same period in 2019. At the KIT level, the Trust maintains a net cash position which provides significant capacity to pursue further acquisitions. KIT's consolidated gearing ratio remains at a comfortable 33.7%.

1Q 2020 Business Updates

- 2.8 In the Distribution & Network Segment, City Gas continued to expand its customer base and maintained 100% availability. City Gas saw minimal impact from COVID-19 in the first quarter. This was due mainly to increased town gas usage by residential customers, which partially offset the decrease in demand from the commercial and industrial customers due to the circuit breaker. The team continues to work round-the-clock to ensure that there are no disruptions to town gas supply during this critical period.
- 2.9 Meanwhile, Ixom delivered a commendable performance in the first quarter, and has stepped up efforts to ensure essential products such as chlorine are not in short supply during the lockdowns. Ixom saw healthy demand from industries in the water treatment, hygiene and F&B sectors.
- 2.10 CEO added that Ixom has a well-diversified business and it is not overly dependent on a single business segment or customer. Ixom has also managed its cost base well during this

period and coupled with continuing productivity and operational improvements, these initiatives and cost savings will be able to cushion any possible prolonged impact caused by COVID-19.

- 2.11 Though KIT does not receive cash flows from Basslink, Basslink achieved positive funds from operations during the quarter.
- 2.12 Meanwhile, all of KIT's assets in the Energy and Waste & Water segments continued to fulfill their contractual obligations. In Singapore, KIT's businesses and assets are integral to the provision of town gas, power, waste treatment and water purification. Contract terms for KIT's concession assets are backed by recurring fixed capacity or availability payments, so earnings will remain stable so long as the plants continue to operate, and availabilities are met.
- 2.13 CEO also expressed his appreciation to all staff and sub-contractors who have been working tirelessly to ensure that all of KIT's facilities remain operational during this period, allowing KIT to fulfill its crucial role of providing essential products and services to the communities and businesses where it operates.

Three-pronged Strategy for Long-Term Value Creation

- 2.14 Looking ahead, the Board and Trustee-Manager remain committed to the pursuit of long-term value for Unitholders. KIT will continue to focus on growth and value creation within its existing businesses and assets, while maintaining high levels of operational excellence.
- 2.15 On the capital management front, the Trustee-Manager remains committed to maintaining a strong balance sheet at KIT that will support its growth plans and safeguard returns to Unitholders.
- 2.16 Although potential deal flows have slowed in the near-term due to the COVID-19 pandemic, the Trustee-Manager continues to source and identify opportunities that will strengthen and complement KIT's already robust portfolio.
- 2.17 All of KIT's businesses and assets, being providers of essential services and products, continue to operate during this pandemic. This reinforces KIT's strong value proposition of delivering recurring returns underpinned by KIT's highly defensive and resilient businesses, as well as predictable and stable cash flows. At the same time, these businesses present potential growth upside.
- 2.18 In summary, the Board and Trustee-Manager are confident that KIT's well-diversified portfolio of businesses and assets are well-positioned to weather this unprecedented period of uncertainty and emerge stronger.
