**Details of collaterals**

The bank borrowings are secured over the assets and business undertakings of City Gas, SingSpring and Basslink Group. The bank borrowings granted to SingSpring is also secured by a charge over the units in SingSpring held by the Trustee-Manager and Hyflux Ltd<sup>1</sup>, and a charge over the shares held by the Trustee-Manager in SingSpring Pte Ltd. The bank borrowings granted to KMC is secured mainly by an assignment of KMC's rights under the Capacity Tolling Agreement.

On 20 December 2015, the Basslink interconnector experienced an unplanned outage caused by a cable fault. The interconnector returned to service on 13 June 2016. As announced on 18 July 2016, Basslink was unable to meet the minimum debt service coverage ratio covenant in the project financing. As a condition of waiver of this event of default, Basslink was required to agree with the banking syndicate a Long Term Financing Plan ("LTFP") which has yet to be agreed as at 31 March 2017 (31 December 2016). There is no contractual recourse to KIT under the project financing. FRS 1 requires the borrowings to be classified as current liability if an entity breaches a provision of a long term loan agreement on or before the end of the reporting period. Accordingly, Basslink's borrowings were classified as current liabilities as at 31 March 2017 (31 December 2016). Basslink and the banking syndicate are still in discussions to work towards agreeing the LTFP.

Notwithstanding the classification, Basslink is current on its debt payments under the project financing, subsequent to the return to service of the interconnector on 13 June 2016. The classification has no material financial impact on the distributions per unit of KIT for the year ending 31 December 2017 since KIT does not rely on Basslink's cash flows for its distributions.

Net cash generated from investing activities of S\$1.5 million in 1Q FY17 arose from receipt of dividend and repayment of advances from Datacentre One. In 1Q FY16, net cash used in investing activities relates mainly to Senoko boiler upgrade.

Net cash used in financing activities of S\$12.5 million and S\$6.4 million in 1Q FY17 and 1Q FY16 respectively, mainly relate to payment of distributions to unitholders and non-controlling interests of subsidiaries, and repayment of borrowings, partially offset by proceeds from loan drawdowns during the periods. Restricted cash balance increased in 1Q FY17 compared to a decrease in 1Q FY16.

### 8.2 Income Statement

Group revenue for 1Q FY17 was S\$155.3 million, S\$24.0 million or 18.3% higher than that of 1Q FY16.

City Gas's 1Q FY17 revenue increased by S\$6.9 million to S\$77.5 million as a result of higher town gas tariff and higher volume of town gas sold. City Gas achieved 100.0% plant availability during the period.

Concessions<sup>2</sup> contributed revenue of S\$23.2 million in 1Q FY17 compared to S\$27.9 million in 1Q FY16. 1Q FY16 revenue included construction revenue recognised from the Senoko boiler upgrade. The boiler upgrade was completed in 3Q FY16. All 4 plants fulfilled their contractual obligations during the period.

Basslink's revenue increased to A\$19.8 million (approximately S\$21.2 million) in 1Q FY17 from A\$1.1 million (approximately S\$1.1 million) in 1Q FY16 as no facility fees were recognised in 1Q FY16 due to the cable outage which occurred between 20 December 2015 and 12 June 2016.

Revenue from KMC was S\$32.4 million, S\$1.8 million higher than 1Q FY16 of S\$30.6 million.

CityNet contributed revenue of S\$1.0 million in 1Q FY17, similar to the comparative financial period last year.

#### **Other income**

Other income in 1Q FY16 was S\$0.8 million higher than 1Q FY17 mainly due to liquidated damages compensation in connection with KMC's plant outage being recognised in 1Q FY16.

#### **Other losses - net**

Other losses comprised mainly the fair value movement on financial derivative instruments.

#### **Expenses**

Fuel and electricity costs of S\$31.4 million in 1Q FY17 were higher than 1Q FY16 due to higher fuel prices and higher volume of natural gas consumed.

Gas transportation costs of S\$23.2 million in 1Q FY17 were slightly higher than 1Q FY16 with the upward revision of gas transportation fees and higher volume of town gas transported.

Depreciation and amortisation decreased from S\$28.7 million in 1Q FY16 to S\$26.9 million in 1Q FY17 as certain assets and intangible assets were fully depreciated and amortised in FY16.

Staff costs in 1Q FY17 were lower than 1Q FY16 due to adjustment of bonus provision in 1Q FY17.

Share of results of joint venture relates to KIT's interest in DataCentre One. The construction of the DataCentre was completed on 12 April 2016 and the lease commenced on the same date. On 7 February 2017, the DataCentre obtained its Certificate of Statutory Completion ("CSC").

#### ***Profit attributable to Unitholders of the Trust***

The higher profit attributable to Unitholders in 1Q FY17 as compared to 1Q FY16 mainly arose from higher contributions from Basslink and KMC, coupled with lower depreciation and amortisation expenses. These were partially offset by lower contribution from City Gas due to the time lag in the adjustment of gas tariffs to reflect actual fuel cost.

### **8.3 Balance Sheet – Group**

The Group reported net current liabilities of S\$420.0 million as at 31 March 2017, comparable to 31 December 2016. Please refer to Paragraph 1(b)(ii) for further details.

Total assets as at 31 March 2017 was S\$4,101.6 million, marginally lower than total assets of S\$4,118.6 million as at 31 December 2016.

No forecast statement for financial year 2017 has been disclosed.

## 10. PROSPECTS

KIT's assets typically generate stable cash flows, with repairs and maintenance of the plants provided for as scheduled outages.

However, if such an outage lasts longer than anticipated and causes the availabilities of the plants to fall below their respective contracted levels, the plants will not be able to receive full payments due under their contracts. In addition, if the plants incur significant downtime due to extraordinary or extensive repairs, it could also lead to termination of contracts and/or liabilities or compensation arising under such agreements. Similarly, reduced availability due to the foregoing reasons would also affect production levels and revenues at City Gas.

City Gas' performance could fluctuate depending on changes in economic conditions and time lag in the adjustments of gas tariffs in response to changes in fuel costs. The tariff adjustments mechanism is designed to ensure that City Gas fully recovers its fuel costs over the long run.

Waste and water concessions have long-term contracts with Singapore statutory bodies and derive most of their cash flows from capacity and availability payments. As such, the underlying performance of these assets are expected to remain stable.

Under the capacity tolling agreement, KMC will receive a maximum annual capacity fee of S\$108 million as long as it meets the availability and capacity test targets, with most of its operating costs being passed through.

While intended to be neutral over the long-term, the CRSM in Basslink may fluctuate in the short-term and such fluctuations will affect the revenues of Basslink. Following a review in April 2016, the CRSM has been adjusted from a band of +25%/-20% to +12.5%/-12.5%, thus reducing the volatility in the facility fees to be received.

DataCentre One was handed over on 12 April 2016 and has commenced generating cash flows. The DataCentre obtained its CSC on 7 February 2017.

CityNet receives an annual management fee from its appointment as trustee-manager of NetLink Trust. CityNet received notice from Singtel of its intention to replace CityNet as the trustee-manager in early 2017. A resolution to replace CityNet as trustee-manager was passed at an Extraordinary General Meeting held on 23 March 2017 and the approval of the Info-communications Media Development Authority of Singapore was sought and obtained thereafter. The effective date of cessation as trustee-manager was 13 April 2017.

On 20 December 2015, Basslink was taken out of service due to a cable fault incident. The cable returned to service on 13 June 2016. The independent international cable expert charged with investigating the cable fault completed the investigations in December 2016 and concluded that the cause of the cable fault is "cause unknown". Based on current circumstances and professional advice, Basslink maintains that the outage is a force majeure event.

Basslink has ongoing discussions with Hydro Tasmania and the banking syndicate on matters arising from the outage, including the subsisting default under the project financing which was announced on 18 July 2016. While Hydro Tasmania has not paid Basslink facility fees since September 2016 (as Hydro Tasmania disagrees that the outage is a force majeure event), Basslink has received good faith payments from Hydro Tasmania since December 2016, whilst the outstanding matters are being resolved. Basslink continues to work closely and engage with Hydro Tasmania towards achieving a satisfactory outcome.

The insurer has confirmed that the physical loss and damage to the cable as well as time element loss (such as business interruption loss) arising from the incident are insurable (subject to the relevant terms of the insurance policy). An advance payment of A\$40 million has been made by the insurer to Basslink, out of which approximately A\$13.7 million was used to pay for part of the repair costs of the interconnector. While the remaining advance payment received is sufficient to cover Basslink's operating needs, its usage is subject to the consent of the banking syndicate due to the aforesaid subsisting default. Basslink is in discussions with the banking syndicate for release of part of the insurance proceeds for Basslink to meet its immediate operating needs as a result of the payment issue with Hydro Tasmania. Basslink is also working with the insurer on the remaining claims under the insurance policy. The foregoing is not expected to have any material financial impact on the distributions per Unit of KIT for the financial year ending 31 December 2017, since KIT does not rely on Basslink's cash flows for its distributions. Unitholders will be updated as more information becomes available.

The Trustee-Manager will evaluate asset enhancement opportunities in its portfolio, and will continue to identify and evaluate suitable acquisitions, including those from the Sponsor, under its investment mandate to further grow the Trust.
