The information contained in this presentation is for information purposes only and does not constitute or form part of, and should not be construed as, any offer or invitation to sell or issue or any solicitation of any offer or invitation to purchase or subscribe for any units ("Units") in Keppel Infrastructure Trust ("KIT") or rights to purchase Units in Singapore, the United States (including its territories and possessions, and state of the United States of America and the District of Columbia) ("United States"), European Economic Area, Canada, Japan, Malaysia, Thailand, Australia or any other jurisdiction. This presentation is strictly confidential to the recipient, may not be relied upon by any other party or for any other purpose, reproduced, retransmitted or further distributed to the press or any other person, may not be reproduced, redistributed, passed on or otherwise disseminated or quoted, directly or indirectly, in any form and may not be published, in whole or in part, for any purpose to any other person in your organisation or elsewhere without the prior written consent of the Trustee-Manager (as defined hereinafter). This presentation should not, nor should anything contained in it, form the basis of, or be relied upon in any connection with any offer, contract, commitment or investment decision whatsoever and it does not constitute a recommendation regarding the Units.

The past performance of KIT is not necessarily indicative of its future performance. Certain statements made in this presentation may not be based on historical information or facts and may be "forward-looking" statements due to a number of risks, uncertainties and assumptions. These "forward-looking statements" may be identified by their use of words like "plans", "expects", "will", "anticipates", "believes", "intends", "depends", "projects", "estimates" or other words of similar meaning and that involve assumptions, risks and uncertainties. All statements that address expectations or projections about the future and all statements other than statements of historical facts included in this presentation, including, but not limited to, statements about the strategy for growth and expansion plans are forward-looking statements. Predictions, projections or forecasts of the economy or economic trends of the markets are not necessarily indicative of the future or likely performance of KIT. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements due to a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar businesses and governmental and public policy changes, and the continued availability of financing in the amounts and terms necessary to support future business. Such forward-looking statements speak only as of the date on which they are made and KIT does not undertake any obligation to update or revise any of them, whether as a result of new information, future events or otherwise. Accordingly, you should not place undue reliance on any forward-looking statements. No assurance can be given that such future events will occur, that such projections will be achieved, or that such assumptions are correct.

Prospective investors and unitholders of KIT ("Unitholders") are cautioned not to place undue reliance on these forward-looking statements, which are based on the current view of Keppel Infrastructure Fund Management Pte. Ltd. (as trustee-manager of KIT) ("Trustee-Manager") on future events. No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information, or opinions contained in this presentation or otherwise made available nor as to the reasonableness of any assumption contained in this presentation; and none of KIT, the Trustee-Manager, their advisers or representatives or any of their respective directors, officers, partners, agents, employees, representatives or advisers of any of the foregoing assumes any responsibility or liability therefore (including in respect of direct, indirect or consequential loss or damage) howsoever arising whether directly or indirectly from any use, reliance or distribution of these materials or its contents or otherwise arising in connection with this presentation. Key Investment Highlights

Attractive entry point into the transportation infrastructure sector

1

Largest bus operator in Victoria with best-in-class performance

2

Attractive market with favourable macroeconomic tailwinds

3

Defensive revenues with cost indexation and capital reimbursement

4

Strong and proven platform of scale to capture growth opportunities

5

Accretive acquisition that strengthens KIT's portfolio resiliency

6

Electrification theme supporting KIT's ESG targets

1. Largest Bus Operator in Victoria with best-in-class performance

Core pillar of Melbourne's transportation landscape

 Largest fleet in Victoria

- Largest share of **public bus services** market in Victoria
- Fast-growing **private bus charterer** in Victoria, serving ~150 schools and supporting tourism and general charter

- **Consistent Market leader** in reliability and punctuality metrics
- **Differentiated digital platform** drives sustainable innovation

 Market leading performance KPIs

1. Data for Metropolitan Bus Services Contracts (MBCS) routes as at Jan 2024
 2. Reliability refers to the actual number of bus service kilometres provided by the operator as a percentage of the total bus services kilometres scheduled to be provided by the operator
 3. Punctuality refers to the total number of on-time services delivered as a percentage of the total number of services scheduled
 Chart source: Australian Bus Fleet List from Bus Australia, Victorian Government Melbourne Bus Contracts, Department of Transport and Planning, Public Transport Victoria

2. Attractive Market with Favourable Tailwinds

Buses: A critical transport link between Melbourne's fastest growing regions

Residential development

Delivery of new routes to serve Melbourne's growing outer suburbs

Key Growth Drivers

Acceleration of commercial and transport infrastructure spend

Victoria's 'Big Build': A\$90b investment delivering over 165 major road and rail projects across the state

Bus reform and network optimisation

Victoria Government aims to boost passenger coverage and network for greater efficiency

1. Addressable market refers to size of bus industry in Metropolitan Melbourne for Mass Transit & Public School Bus and Victoria for Private

Provides stable EBITDA and
cash flows with
performance incentives

Cost-indexed payments

- **Fixed-fee; inflation-protected**
 - No farebox / patronage risk
 - Stable revenue based on service delivery cost plus a fixed margin
 - Contract payments indexed to relevant inflation indices (i.e. CPI, fuel index, labour index)
 - Incentive payments for meeting KPIs

Capital reimbursement

- **Return of and on capital expenditures (capex)**
 - Reimbursement for capex on fleet acquisitions and depot upgrades¹
 - Receive access payment for usage of depots

1. Each fleet purchase is reimbursed over 14 years plus a 'return on capital' component
2. Automatic two-year extension if certain KPIs are met

4. Strong Platform of Scale to Capture Growth Opportunities

Pursue growth opportunities within existing business and adjacent verticals

Capture upsides within key regions

1

Increase service kilometres and optimise service efficiency

- Increase government contracted service kilometres via new, expanded and more frequent routes
- Optimise cost base and achieve greater savings from electrification
- Expand and maximise share of charter hires within operating regions

2

Expand network

Tender for additional routes in Victoria and other Australian states

Leveraging technology for vertical and horizontal growth

3

Grow new revenue streams

Unlock ancillary revenues e.g. on-demand bus service

4

Differentiating on technology

Drive sustainable advantage from existing platform¹

Strategic expansion

5

Additional electrification revenue

Opportunities for third-party charging revenue²

6

Bolt-on acquisitions

- Pursue M&A opportunities
- Expand geographic footprint within and outside Melbourne

1. Proprietary safety and route planning apps

2. Charging for ad-hoc usage of unutilised charging capacity at electrified depot (e.g. trucks, emergency services, etc.)

Growth and Value Creation

German Solar Portfolio

Market Outlook

Infrastructure: Driving Sustainable Development

Resilient sector amid market turmoil..

- **Investor appetite for infrastructure assets is expected to remain strong amid uncertain macro backdrop**
- **Listed infrastructure has historically produced above-average returns in inflationary environment** with stronger inflation-linked cash flows and profitability

... powered by the Energy Transition sector

- **US\$4.6 trillion in global energy transition and grid investments** e.g. renewables, EV, carbon capture, are required annually between 2023 and 2030 for the world to get back on track to net zero¹
- **Accelerate EV adoption:** Governments globally have introduced incentives and regulations to spur demand for EVs and curb transport-related emissions

.. and transit towards the circular economy

- **Continued demand for waste to energy (WTE) and water desalination technologies,** underpinned by the growth in urban population, industrialisation, and climate change

1. BloombergNEF estimates

Continued Focus on Growth

Leveraging on the Sustainable Urbanisation thematics

- 1** Focus on developed markets in APAC and Europe; opportunistic for the rest of the world
- 2** Optimise portfolio through asset recycling, unlocking value to **grow evergreen portfolio**
- 3** Leveraging Sustainable Urbanisation thematics for sustainable growth:
 - Energy Transition & Climate Change
 - Rapid urbanisation & ageing population
 - Digitalisation

- Actively pursue third party evergreen businesses and yield-accretive investments

Near-term pipeline

Acquire 100% economic interest in **Keppel Marina East Desalination Plant**

European Onshore Wind Farm pipeline: 6 consented projects (486 MW)¹ and 8 additional projects (660MW)¹

Potential investment in **up to 1 GW of Jinko Power's solar farm and energy storage projects**

1. As of 31 Dec 2023. Consented projects are pipeline projects that obtained all permits. Additional projects include other onshore wind development projects in Sweden or the UK owned and controlled directly or indirectly 100% by FORAS which have a reasonable prospect of reaching FID within 5 years from the entry into the Subscription Agreement.

Business Updates: Energy Transition

- **City Energy**
 - Expanded product offerings with the acquisition of TSH's LPG business, the second largest LPG cylinder distributor in Singapore, allowing City Energy to grow into a new market
 - Exclusive rights to extend EV charging services to ~20,000 carpark lots in private residential and mixed developments
 - Higher income from mandatory annual gas inspections following 2023 Gas Act amendment
- **KMC:** Lower availability of 95.8% due to unplanned outage; operations resumed in Dec 2023
- **BKR2:** Granted additional capacity of 26 MW; output capacity to increase to 486MW with upgrading works
- **European Onshore Wind Platform:** Achieved commercial operations of Fäbodliden II (17 MW) in Dec 2023
- **German Solar Portfolio:** Completed first closing comprising 53,500 installed solar panel systems in Jan 2024; remaining 6,500 systems to be completed by Jun 2024 in phases. Total Generation Capacity of 585 MW when completed
- **Aramco Gas Pipelines Company:** Demand underpinned by economic growth and favourable demographics as part of the Kingdom of Saudi Arabia's efforts to reduce carbon emissions

Business Updates: Environmental Services

- **EMK**
 - Maintained high availability and full utilisation of incineration capacity
 - Higher volume for landfill business: Secured new contracts from blue chip customers
 - Seeking growth opportunities through accretive bolt-on acquisitions
- **Singapore waste and water assets**
 - Fulfilled all contractual obligations
 - Extended concession of the Senoko WTE Plant with Singapore's National Environment Agency (NEA) for 3 years with an option to further extend by up to another year: DI contribution will not be significant as KIT is only funding a small portion of the refurbishment capex
 - Ongoing discussions with regulators to explore the extension of the SingSpring Desalination plant

Business Updates: Distribution & Storage

- **Ixom**
 - Strong volume and pricing across coagulants, caustic and sodium hypochlorite in Australia
 - Increased volume from the industrial and dairy segments of the New Zealand business
- **Philippine Coastal**
 - Tank utilisation rate of almost 100% as at end-Dec 2023, underpinned by increased demand and robust outlook
 - Secured renewal of a major customer contract at attractive pricing for 4 years with option to extend for another 5 years
 - Execution of new pricing strategy to drive revenue and enhance margins

1. KMC's full year computed DI is negated by the mandatory debt repayment in Jun 2023.
2. Comprises Trust expenses and distributions paid/payable to perpetual securities holders, management fees and financing costs. The higher costs were due to higher management fees from the capital optimisation of \$131.2m in the Group's 2H2023 Distributable Income, the issuance of the Series 4 Medium Term Notes in May 2022 and draw down of equity bridge loans to fund the acquisitions of EMK and BKR2 in 2H 2022.
3. Including capital optimisation at City Energy, total value creation proceeds will be \$273m.

2. A 100bps change in interest rate would have a ~1.5% impact to FY 2023's Distributable Income

Capital Management

Well-diversified debt maturity profile with healthy capital management metrics

- Obtained \$100m in corporate loan facilities in 4Q 2023 to support 2024 acquisitions
- Reviewing KMC's capital structure to allow the plant to resume contributions to KIT
- Mitigating impact of currency fluctuations: 67% foreign currency distributions hedged

Sustainability at the Core

On track to achieve ESG targets

- Progressing on decarbonisation roadmap with reduction in carbon emissions intensity and increased exposure to renewables; continue to promote workplace diversity and develop human capital

1. Excluding capital optimisation gains and associated management fees in FY 2023, KIT's reduction in carbon emissions intensity from 2019 would be 7%.
